Project Title

Havenly Tails: A Stray Animal Rescue and Adoption Platform

Short Description

Havenly Tails is a website dedicated to helping stray animals, including cats, dogs and other animals living on the streets. The main purpose of this platform is to provide a convenient way for people to help animals in need. Users will be able to report stray or injured animals by sharing their pictures, locations and relevant information so that they can receive proper attention and rescue assistance. The website will also provide animal adoption facilities, basic animal-care information, veterinary assistance resources and opportunities for people to support stray animals through volunteering and donations. Through these services, Havenly Tails aims to connect animal lovers, potential adopters, volunteers and rescue organizations to improve the safety and well-being of stray animals.

Types of User:

1. Animal Reporter / General User

2. Adopter / Volunteer

3. Administrator / Rescue Coordinator

Common Features (Available to All Users)

- **Authentication**
  1. Login to the system.
  2. Logout from the system.
  3. User registration.
- **Account Management**
  1. Change or reset password.
  2. View and edit profile information.
  3. Manage personal account details.
- **Dashboard**
  1. Access a personalized dashboard after login.
  2. View relevant animal welfare information and updates.
  3. Navigate to the features available according to the user's role.

Specific Features by User Type

- **Features of User1**
  1. **Report Stray or Injured Animals:** Submit information about stray animals by providing photographs, location details and a description of their condition.
  2. **Request Rescue Assistance:** Notify the rescue team about animals that appear injured, sick, abandoned or in danger.
  3. **Access Animal Care Information:** View basic animal-care guidelines, emergency precautions and veterinary assistance information to understand how to help an animal safely.
- **Features of User2**
  1. **Browse Animals for Adoption:** Explore available animals through profiles containing photographs, species, age estimates, health information and adoption details.
  2. **Submit Adoption Requests:** Express interest in adopting an animal and provide the necessary information for the adoption process.
  3. **Participate in Animal Welfare Activities:** Explore volunteering opportunities, contribute to animal welfare initiatives and find ways to support rescue and care activities through donations.
- **Features of User3**
  1. **Manage Animal Reports:** Review submitted animal reports, verify available information and prioritize cases requiring assistance.
  2. **Coordinate Rescue Operations:** Assign or coordinate rescue cases with available volunteers and update the progress of reported cases.
  3. **Manage Animal and Adoption Records:** Add, update, or remove animal profiles, manage adoption requests and publish relevant animal-care and veterinary assistance information.

N.B: Each user type must have at least 3 distinct features different from the others. Additional features may be added if desired. Proposals with generic, incomplete, or duplicated features across user types will receive reduced marks under the criteria below.
